Children need well-balanced meals in order to meet their daily energy needs and to help them build strong bodies and minds. Proper nutrition is important to good health and is also an important part of a good child care program.

WHAT IS THE CHILD AND ADULT CARE FOOD PROGRAM (CACFP)?

The CACFP is a federal program under the U.S. Department of Agriculture (USDA) that provides aid to child and adult care institutions and family or group day care homes to serve nutritious foods.

Participating day care home providers are reimbursed for meals served to children in their care. All reimbursed meals must follow meal patterns set by USDA. A day care home provider can receive reimbursement for two meals and one snack, or two snacks and one meal for each child in the provider's care per day.

HOW IS REIMBURSEMENT DETERMINED?

USDA has established a two-tier reimbursement system, Tier I and Tier II. Reimbursement rates are determined upon eligibility for Tier I or Tier II. The rates of reimbursement are established annually by the USDA and are effective July 1 to June 30.

To determine whether you're eligible for a Tier I or Tier II reimbursement rate, call Sanford's Family Day Care Network for more information.

This institution is an equal opportunity provider.

The Child and Adult Care Food Program is 100% federally funded and administered in South Dakota by the Department of Education, Child and Adult Nutrition Services.
